DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 6/09/03 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the files are confidential and may not properly be considered. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 14-26 rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The preamble reads "Computer-readable code stored on a media..." but should be "executable on a computer" or such language, otherwise it is code per-se and non statutory.

Allowable Subject Matter

3. Claims 1-13, 27 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter:

Art Unit: 3629

As per Claims 1, 27.

The prior art of record, specifically Jung ('936) in view of Sharp (JP 06176038) does not disclose:

- calculating, based on said comparison, the likelihood that said wait-listed reservations will materialize if promoted to reserved status;
- ordering said wait-listed reservations based on their likelihood of materization;
- outputting said ordered wait-listed reservations.

Jung ('936) discloses:

- gathering past reservation information relating to past reservations for perishable commodities that have already perished, see figure 1 (10);

- gathering wait list reservation information relating to wait listed reservations for perishable commodities that have not yet perished, see column 1, line 65 – column 2, line 14;

- comparing past reservation information and said wait list reservation information, see column 2, lines 41-49;

Jung does not disclose:

- calculating, based on said comparison, the likelihood that said wait-listed reservations will materialize if promoted to reserved status;
- ordering said wait-listed reservations based on their likelihood of materization;
- outputting said ordered wait-listed reservations.

Sharp teaches a wait list promotion system based on what appears to be "the ten minute rule" mentioned in Jung, but does not disclose calculating based on comparison of past information and reservation information the likelihood of materialization.

Applicant's disclosure, page 7, line 12 – page 8, line 11 hint at a prior art method for promoting wait listed potential purchasers, but does not disclose calculating based on comparison of past information and reservation information the likelihood of materialization.

The Claims that depend from the above allowed claims are allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
